

# Hardware Change Notification

Beginning November 5<sup>th</sup> the SolarEdge single and three phase inverters have a revised connection panel, with larger communication glands, as pictured below.

The new glands are numbered and can be used as follows:

Gland	Size [mm]	Function	Wire Size
1	20	Ethernet connection (CAT5/6) or ZigBee antenna	4.5-7 mm
2 +3	16	RS485 and ZigBee antenna	2-7 mm
