

Application note: Identification of Inverter Manufacturing Date

Version History

- Version 1.0 (Sep. 2019) – Initial release

This document describes how to identify the manufacturing date of SolarEdge inverters.

This document relates to SolarEdge inverter series:

- Single phase inverters with compact technology
- Single phase inverters with HD-Wave technology
- Three phase inverters
- Three phase inverters with synergy technology

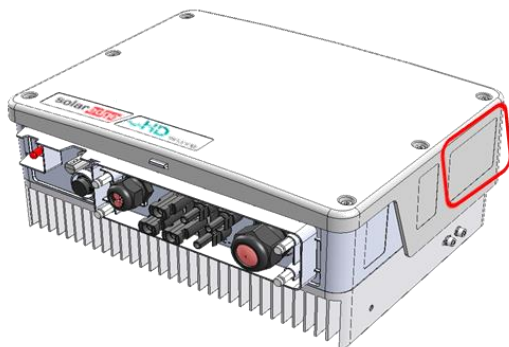

The manufacture date of SolarEdge inverters can be identified by decoding the four left hand digits of the serial number of the product. The serial number of the product, can be found on the information label attached to the product.

Example of identifying the manufacturing date:

SJ4218-xxxxxxxx-xx

Production week: **42**

Production year: **18** (2018)

I hereby declare that the photovoltaic micro installation covered by this application for co-financing:

- Applies to the assembly of new devices manufactured not earlier than 24 months before the date of its assembly
