DECLARATION OF COMPLIANCE for EQUIPMENTS for distributed generation

for the application of §2.10, §2.13 and annex 4 (automatic decoupling system)
according to the Synergrid prescription C10/11 revision 04.06.2012

The undersigned, Manufacturer: SolarEdge Technologies Ltd. ............ Represented by: Meir Adest, VP Core Technologies ....
Address: 1 Hamada St. .................. Country: Israel ...........................................
Herzelya Pituach, 4673335 ............ Telephone: +972-9-9576620 ..........................

Hereby declares that each equipment listed on the page hereafter satisfies the following conditions:

1. The equipment meets the criteria as described in the Synergrid prescription C10/11 ed. 06.2012, § 2.10 and 2.13 (see also §5.7.3.3 of the "Anwendungsregel" VDE-AR N 4105: 2011-08).

2. In case of an installation ≤ 10 kVA equipped with an automatic decoupling system:
   2.1. If the equipment is connected to a Belgian distribution grid, the configuration of the automatic decoupling system complies with the parameterization as required in the Synergrid prescription C10/11 ed. 06.2012, annex 4, §3 (see also §6.5.2 of the "Anwendungsregel" VDE-AR N 4105 2011-08).
   2.2. The automatic decoupling system of the equipment fulfills:
      a. either the type tests required in §6 of the « Preliminary standard » DIN V VDE V 0126-1-1 of February 1, 2006, amended in February 2012;
      b. or the type tests as referred to in §9.4 of the "Anwendungsregel" VDE-AR N 4105 2011-08.

In order to prove this, either a certificate which demonstrates the required compliance, or the necessary test reports, is (are) provided to Synergrid. The certificate is issued by a EN 45011 (or ISO 17065 :2012) body certified for these materials, or the test reports are issued by a laboratory accredited for these tests (ISO 17025:2005 or ISO 17065:2012 accreditation). The certificate or the test reports prove that the automatic decoupling system complies with the requirements of the type tests as described above.

1. **Equipments ≤ 10 kVA, provided with an automatic decoupling system**

   NOTE: Single phase inverters > 5 kVA are not accepted, unless an exception is permitted by the local DNO (distribution network operator) and explicitly mentioned on its website. See also C10/11 §2.4 (+ footnote 5) and its FAQ question 1.2.
