This guide will help you install your EV Charger cable, activate your EV Charging Inverter and configure it to fit your needs.

**Package Contents**
- EV Charger cable
- Wall-mounted holder (screws not included)
- Cable lock & installation guide

**Required Equipment**
- 4 screws
- Screwdriver
- Drill
/ CONNECTING & HANGING

1. Connect EV Charger Cable to Inverter

A. Make sure inverter is installed
B. Make sure inverter is connected to SolarEdge monitoring platform

2. Determine Mounting Location

A. Align
B. Plug
C. Rotate to fasten

Reserve sufficient space

3. Mount Cable Holder

A. Disassemble
B. Mark
C. Drill holes

D. Lock cable
E. Slide
F. Fasten with two screws

4. Connect Cable to Holder

To install the cable lock, refer to the separate installation guide
ACTIVATING & CONFIGURING

Connection to the SolarEdge Monitoring Platform is required for first time EV charging. For questions please contact your installer.

1. DOWNLOAD APP & LOG IN

   - For iPhone
   - For Android

2. CONFIGURE

   - Charging status
   - Charging session information
   - Edit car details
   - Set up charging schedule

YOU’RE ALL SET!
GET READY TO START CHARGING FROM THE SUN

Note: Access to camera is required in order to scan the cable QR code

Connection options: Ethernet/Zigbee/Wi-Fi/Cellular (Refer to the inverter installation guide)
/ CHARGING

1
Verify that the green LED at the bottom of the inverter is flickering or blinking, indicating that the EV Charger is ready to charge.

2
Hold the EV Charger plug and disconnect the cable from the holder.

3
Connect the EV Charger plug to the charging socket of the vehicle and push firmly until it clicks into the socket. The inverter will sound 1 short beep and the green LED will start blinking to indicate a proper connection. The charging starts automatically, indicated by 2 short beeps followed by 1 long beep and the green LED is ON.

4
When the charging is complete, the green LED starts blinking.

5
Press the EV Charger plug latch and pull it from the EV charging socket.

6
Wind the EV Charger cable on the holder and connect the EV plug.

For all LED indications and additional charging configurations, refer to the EV Charging Inverter installation guide and videos: solaredge.com/products/ev-charger/activation-and-configuration

/ LED

In case the inverter has a display, refer to the ‘EV Charging Single Phase Inverter Installation Guide v1.2’ for LED indications description.

About SolarEdge

SolarEdge is a global leader in smart energy technology. By deploying world-class engineering capabilities and a relentless focus on innovation, we create smart energy products and solutions that power our lives and drive future progress.
