LG Battery Powering off/on Sequence, Erratum

LG Chem batteries must be powered off or on in the exact order specified in this erratum. This erratum overrides any other LG Battery powering off/on instructions currently specified in the StorEdge manuals.

LG Chem batteries are available with either of the following two types of powering mechanism design:

- With the **disconnect** switch (this battery requires Firmware version 3.24xx or later):

- With the **auxiliary power** switch:

**To power off the battery:**

1. Turn off the circuit breaker.
2. Turn off the disconnect/auxiliary power switch.

**To power the battery back on:**

1. Turn on the disconnect/auxiliary power switch.
2. Turn on the circuit breaker.
